Cumulative Index

SELECTED PAPERS

1955 — 1963

Arranged by Subject

The index is comprised of five general sections corresponding to the general classifications under which the particular papers have appeared in the volumes of the last several years, that is, the Accounting Profession, Accounting Principles and Problems, Auditing Procedures and Problems, Tax Considerations, and Management Advisory Services.

To find a paper on a particular subject, the reader should first decide the general area of his interest and then examine the list of subtitles. Under the subtitles papers have been listed in chronological order by year, and within any particular year alphabetically by author.
